PROFILE

Information Systems student who enjoys learning, solving problems, and turning ideas into practical solutions. My studies and hands-on projects have exposed me to a wide range of technologies, development environments, and information systems, giving me the confidence to learn unfamiliar tools and adapt to different technical requirements. I bring a combination of **technical curiosity, problem-solving, leadership, teamwork, and willingness to learn**.

CORE TECHNICAL SKILLS

Information Systems	Systems Analysis, Business Process Analysis, Information Management, Requirements Understanding, Data Management
Web Development	WordPress, Elementor, HTML5, CSS3, JavaScript, React, Next.js, Tailwind CSS, Responsive Design
Programming & Backend	Python, FastAPI, REST APIs, API Integration, Object-Oriented Programming
Databases	SQL, PostgreSQL, MySQL, Supabase, Database Design, Data Organization
Enterprise Systems	SAP, Enterprise Systems Fundamentals, Business Process Understanding
Development Environment	Git, GitHub, Visual Studio Code, Docker, VirtualBox, Terminal / Command Line
AI & Automation	ChatGPT, Claude AI, Prompt Engineering, AI-Assisted Development, RAG, Embeddings, Workflow Automation
Web Operations	CMS Management, Website Maintenance, SEO Fundamentals, Domain / Hosting Fundamentals, Cross-Device Testing
Project Management	Project Coordination, Task Planning, Team Collaboration, Deadline Management, Event Delivery

EXPERIENCE

Nigeria High Commission, Kuala Lumpur **2025**
Website & Digital Systems Support *Kuala Lumpur, Malaysia*

- Manage the organization's website and digital content, maintaining accurate, current, and professionally presented institutional information.
- Handle website updates, content organization, page management, and ongoing digital maintenance.
- Structure and review web content to improve accessibility, navigation, information discovery, and user experience.
- Work with organizational requirements and translate information into clear and effective digital presentation.
- Support digital communication initiatives and resolve website content and presentation issues.

Candid Media **2024**
Social Media Assistant *Lagos, Nigeria*

- Created, organized, and scheduled digital content across social media platforms.
- Maintained consistent branding, messaging, and visual presentation across digital channels.
- Supported content planning, audience engagement, and basic performance analysis.
- Collaborated with team members to execute digital communication initiatives.

SELECTED WEB & DIGITAL PROJECTS

Nigeria High Commission Website *Web Development*

- Developing and improving a professional institutional website with emphasis on responsive design, structured information, usability, and professional presentation.
- Working with **React, Next.js, Tailwind CSS, JavaScript, Git, and GitHub**.

Dr. Saheed Abdullah Busari Website *Web Development & CMS*

- Developing a content-focused platform for lectures, articles, publications, research, and questions and answers.
- Implementing responsive interfaces and database-backed functionality using **Next.js, React, Tailwind CSS, Supabase, and APIs**.

GulfNaija Trading Website *Business Website*

- Developed a responsive business website for a Qatar–Nigeria company, presenting services and company information through a professional online presence.

Tech Careers Day Website *Technical Team*

- Supported website content, event information, and digital presentation for a university technology event while collaborating with the technical team.

CodeNection 2026 *Technical & Digital Support*

- Supported digital operations and communication for a university coding competition, including structured Discord communications and event coordination.

TECHNICAL & SOFTWARE PROJECTS

NAVORA *Information System*

- Developing an information system for mobility and logistics covering users, companies, authentication, databases, and services.
- Working with **Python, FastAPI, PostgreSQL, REST APIs, Git, Docker, and development environments**.

Abdullah AI *AI Application*

- Building an AI-powered knowledge assistant using a structured knowledge base, semantic search, embeddings, and retrieval-augmented generation.
- Working with **Python, FastAPI, APIs, RAG, embeddings, and AI-assisted development**.

GameForge Servers *University Group Project*

- Contributed to a collaborative software development project involving programming, version control, teamwork, and practical software engineering.

Light MariaDB Interpreter *Programming Project*

- Contributed to a programming project focused on developing a simplified database interpreter and applying database and programming concepts.

Robot War *Programming Project*

- Developed as part of university programming work, applying programming logic, problem-solving, and collaborative development practices.

TECHNICAL EXPOSURE

Hands-on academic and project-based experience across **software engineering, database systems, systems analysis and design, object-oriented programming, computer networks, operating systems, information management, business process analysis, and web development**. Regularly work with different tools, programming languages, development environments, and platforms as part of coursework and independent project work. This exposure has developed strong adaptability and the confidence to learn and work with unfamiliar technologies when required.

LEADERSHIP & ACTIVITIES

- **Assistant HOD, Logistics – OARS:** Supported planning, coordination, and execution of student activities and outdoor events.
- **Technical Team – Tech Careers Day 2026:** Contributed to the technical and digital execution of a university technology event.
- **Student Community Initiatives:** Founded and coordinated African student community initiatives involving communication, organization, and student engagement.
- **Online Educator:** Experience teaching and explaining concepts to international students, strengthening communication and presentation skills.
- **International Youth Leadership (IYL) Summit:** Participant in an international youth leadership programme.

EDUCATION

Multimedia University (MMU), Cyberjaya, Malaysia **Expected Graduation: 2027**
Bachelor of Information Technology (Information Systems)

LANGUAGES

English – Fluent **Arabic** – Fluent **Yoruba** – Native
